# ABOUT SPAZIO GIESSE

Spazio Giesse is an integrated, scalable and high-tech solution that streamlines aluminium frame production and rod cutting while minimising costs, times and margin of error.

- The system consists of an automatic or semi-automatic machine for cutting and machining control rods;
- polyamide rods for Euro groove, 15/20 groove (new 30% recycled polyamide rods also available);
- a complete range of cutting-edge products and components, which are constantly redeveloped to optimise their performance.

**EASY,  
FAST,  
CONVENIENT**

## **PRODUCTIVITY**

Speeds up assembly time by freeing up the warehouse
